## solo

With its minimalist design, Solo does not outspokenly call attention to itself, but in all its purity it has a quiet presence. Each luminaire is cast and polished by hand, which makes each one unique. The sand-like texture gives the lamp a warm, natural appearance and the halogen reflector provides a pleasant, diffuse light. An interesting snippet of information is that the collection is an ode to Solo, Jacco Maris's dog. His personal paw print on the back is silent witness to this.
