A collection of seven cylindrical suspension lamps made of thin metal rods, some in a brushed metal finish and others in a gold finish, hanging from black cords at varying heights. The rods are arranged in a way that creates a sense of depth and movement.

Jacco Maris has designed Needles & Pins after falling in love with the amazing material. The shape with the waist gives the metal structure an extra twist. The warm LED light shines through Needles & Pins and therefore offers its surroundings unique reflections and shadows. As a group or individually this lamp will create a sophisticated atmosphere. Needles & Pins includes a collection of suspension lamps in various lengths and is available in different materials.
