Project LUZANO

# brass-O

Brass-O fills the room with a soft, luxurious glow. This circular lamp, crafted in brushed patinated brass, exudes sophistication and elegance. Its stunning finish and sleek design create a striking light display when combined in different sizes. The vertical Brass-O seems to float weightlessly, suspended by nearly invisible cables, while the wall version casts a radiant, sun-like glow. Brass-O transforms any space with its timeless beauty.
